**JF Provident Capital Fund
Summary of Explanatory Memorandum**

IMPORTANT: If you are in any doubt about the contents of this summary, you should consult your stockbroker, bank manager, solicitor, accountant or other financial adviser.

JF Funds Limited accepts responsibility for the information contained herein being accurate as at 6 May 2005.

The primary investment objective of the JF Provident Capital Fund (the “Trust”) is to minimize its short term capital risk in Hong Kong dollar terms. The secondary objective is to outperform Hong Kong dollar deposit rates over the long term. The Trust seeks to achieve these investment objectives through a professionally managed portfolio of interests in collective investment schemes managed by the Manager or its Connected Persons.

The underlying asset mix of the Trust will have a major bias towards investment in HK\$ and US\$ bonds to ensure that the capital value and income stability of the portfolio is maintained whilst balancing this with a minor exposure to global equities to provide the potential for some capital appreciation for the portfolio. By having significantly more exposure in bonds than in global equities, the short term volatility of the portfolio should be minimized whilst still maintaining the potential of modest return in the long term.

The Trust's portfolio is, of course, subject to market fluctuations and to the risks inherent in all investments. Therefore, the subscription and realization prices of units may go down as well as up.

Short term volatility : Low to medium

Long term return target : Modest capital growth

The Trust is designed as an investment vehicle for trustees, custodians or other administrators of provident and retirement schemes.

JF Funds Limited is the manager of the Trust (the “Manager”). The Manager has delegated day to day investment management to JF Asset Management Limited (the “Investment Manager”).

The Trustee of the Trust is Royal Bank of Canada Trust Company (Cayman) Limited. The registered office of which is at P.O. Box 1586, 24 Shedden Road, Grand Cayman, Cayman Islands, British West Indies. The Trustee is responsible for the safe custody of the assets of the Trust and is not responsible for the selection of investments or the Trust's investment performance.

The Trust is governed by the laws of the Cayman Islands and is constituted by a Trust Deed dated 29th September 1995. Unless terminated earlier in accordance with the provisions of the Trust Deed, the Trust will automatically terminate on 29th September 2145. The Trust may be terminated by the Trustee or the Manager in certain circumstances, by Extraordinary Resolution of the unitholders or when the aggregate net asset value of all units in issue falls below HK\$20,000,000.

Distribution of this Summary of Explanatory Memorandum is not authorized in any jurisdiction unless it is accompanied by a copy of the most recent annual accounts of the Trust (if issued) and the most recent half yearly report (if issued after such annual accounts). Such annual accounts and half yearly report (where applicable) will form part of this Summary of Explanatory Memorandum.

Units will be offered on the basis only of the information contained in this Summary of Explanatory Memorandum, such annual accounts and (where applicable) such half yearly report. Any further information or representations made by any dealer, salesman or other person must be regarded as unauthorized and accordingly must not be relied upon. Neither the delivery of any of the foregoing documents nor any offer, issue or sale of units shall, under any circumstances, constitute a representation that the information given in any such document is correct as of any time subsequent to the date of such document.

Risk Factors

The performance of the Trust will be affected by a number of risk factors, including the following:

- (i) Political, economic and social risks – All financial markets may at times be adversely affected by changes in political, economic and social conditions.
- (ii) Market risk – The Trust's investments are subject to the risks inherent in all securities, i.e. the value of holdings may fall as well as rise.
- (iii) Interest rates – Interest rates in the countries in which the Trust's assets will be invested may be subject to fluctuation. Any such fluctuation may have a direct effect on the income received by the Trust and its capital value.
- (iv) Currency risk – Investors whose base currency is not HK dollars will be exposed to currency risk in that the value of their investment in their base currency will be

affected by movements in the exchange rate between their base currency and the HK dollar.

Furthermore, as investment of the Trust will include collective investment schemes which may be denominated in non-HK dollars or with assets, some or all of which may be quoted in non-HK dollars, the Trust will be exposed to currency risk since the performance of the underlying funds' non-HK dollar assets will also be affected by movements in exchange rates.

- (v) Credit risk – If the issuer of any of the securities in which the Trust's assets are invested defaults, the performance of the Trust will be negatively affected.

Issue and Realization of Units

The Trust is denominated in HK dollars. There are two classes of units, Administration Units and Investment Units. Prices will be expressed in HK dollars. The issue of units is at the discretion of the Manager. The Manager may decline to accept an initial subscription for less than HK\$2,000. Currently units are normally issued on every dealing day which normally be every day (other than a Saturday or a Sunday) on which banks in Hong Kong are open for normal banking business and on which all or part of the collective investment scheme(s) invested in by the Trust are available for normal dealing. In order for units to be issued on any particular dealing day, the application must be received by the Manager not later than 4:00p.m. (Hong Kong time) on that dealing day or such other time agreed between the Manager and the Trustee. The Manager may change the time by which applications must be received in order to be dealt with on any particular dealing day.

With effect from and including 1 July 2005, in order for units to be issued on any particular dealing day, the application must be received by the Manager not later than 3:00p.m. (Hong Kong time) on that dealing day or such other time agreed between the Manager and the Trustee.

The price at which units will be issued (the "Subscription Price") is based on the net asset value of the Trust Fund. Administration Units are subject to an administration fee which is designed to cover the administration costs of the provident and relevant schemes operated by investors. Arrangements may be made by investors who are trustees or administrators of such schemes for the rebate by the Manager of the whole or part of the fee to them. As a result of the application of the administration fee, which is borne only by Administration Units, the prices of Administration Units and Investment Units will be different with the price of Administration Units lower. In other respects the units rank *pari passu*.

Subject to conditions set out in the Trust Deed, the Manager will realize units on every dealing day in respect of requests received up to 4:00 p.m. (Hong Kong time) on that dealing day or such other time agreed between the Manager and the Trustee. The Manager may change the time by which realization requests must be received in order to be dealt with on any particular dealing day.

With effect from and including 1 July 2005, the Manager will realize units on every dealing day in respect of requests received up to 3:00 p.m. (Hong Kong time) on that dealing day or such other time agreed between the Manager and the Trustee. All realization requests should be sent to the Manager.

The price at which units will be realized (the "Realization Price") is based on the net asset value of the Trust Fund. A realization charge not exceeding 0.5% of the net asset value of the unit realized may be charged (which will be retained by the Manager for its own use and benefit) but no such charge is currently made. For Administration Units the Realization Price will take account of the accrued Administration Fee. Partial realizations are permitted, provided they do not result in a holding of less than HK\$2,000 of the relevant class. If the

unitholder's holding falls below HK\$2,000 as a result of a partial realization, the Manager will require the unitholder to realize his units in full. Realization proceeds will normally be paid within seven business days and in any event not later than four weeks after the date of actual receipt by the Manager of a duly completed realization request in a prescribed format and such other information as the Trustee or the Manager may reasonably require. Failure to provide such information may delay the payment of realization proceeds. Payment will be made by telegraphic transfer where the unitholder has provided payment details for this purpose. Unitholders may be liable for any bank charges on payment by telegraphic transfer. Where the unitholder has not provided bank payment details or where the realization amount is less than US\$1,000 or its equivalent, realization proceeds will normally be paid by cheque, posted at the risk of the unitholder. No third party payments will be made.

In the event that a unitholder wishes to switch out of the Trust into another collective investment scheme managed by the Manager or in respect of which the Manager acts as Hong Kong representative, the switch will be treated as a realization of units in the Trust and accordingly a realization charge, calculated on the above basis, will be charged. In addition, a reduced preliminary or initial charge may also be charged by the particular collective investment scheme into which the realization monies are transferred.

The Subscription and Realization Prices for each dealing day are currently based on the valuation of the Trust as at the close of business on that day.

The method of establishing the value of the Trust's net assets is set out in the Trust Deed. The value of interests in any collective investment scheme is the latest published net asset value per unit or share in such scheme (where the same is published and is considered by the Manager to be appropriate) or (if such net asset value is not published or not considered by the Manager to be appropriate) the average of the last published bid and offer prices for such unit or share. Cash, deposits and similar investments are valued at their face value (together with accrued interest) unless, in the opinion of the Manager, any adjustment should be made to reflect the value thereof. Such valuations will be expressed in HK dollars. The Manager may adjust the value of any investment if it considers that such adjustment is required to reflect more accurately the fair value of the relevant investment.

Market volatility may result in a discrepancy between the latest available subscription and realization prices for the Trust and the fair value of the Trust's net asset value. Certain investors might exploit this discrepancy. By these investors paying less than the fair value for units on issue, or receiving more than the fair value on realization, other unitholders may suffer a dilution in the value of their investment. As a safeguard against such exploitation, the Manager may, with the prior consent of the Trustee, adjust the net asset value of the Trust or of a unit, if it considers that such adjustment is required to reflect more accurately the fair value of the net asset value. Such adjustment shall be made in good faith, with the Manager taking into account the best interests of unitholders.

Investors should be aware that the price of units may go down as well as up. There are also circumstances provided for in the Trust Deed which may temporarily restrict investors' rights to realize.

The Manager may, having regard to the interests of unitholders, suspend realization of units and/or delay the payment of any realization monies when (1) there is a closure or suspension of trading on any market on which a substantial part of the underlying investments of the Trust is normally quoted, listed, or dealt in, or (2) there is a breakdown in any of the means of determining the Trust's net asset value, or (3) the prices of the Trust's investments cannot be reasonably ascertained, or (4) the disposal of investments cannot be effected reasonably practicably or without prejudicing the interests of unitholders, or (5) the remittance of funds cannot be effected at normal rates of exchange.

In addition, the number of units realized on any dealing day may be limited to 10% of the total number of units of either class in issue. This limitation will apply pro rata to unitholders wishing to realize their units. Dealing days may be varied in future by the Manager.

Application for Subscription and Payment

Units may be purchased by completing an Application Form. All applications should be sent to the Manager. All applications must specify the class of Units, Administration Units or Investment Units, for which application is made. No application should be lodged with any intermediary in Hong Kong who is not licensed or registered to carry on Type 1 regulated activity (dealing in securities) under Part V of the *Securities and Futures Ordinance* of the Laws of Hong Kong or who does not fall within the statutory or other applicable exemption from the requirement to be licensed or registered to carry on Type 1 regulated activity (dealing in securities) under Part V of the *Securities and Futures Ordinance*.

A contract note will be sent to successful applicants specifying the number and class of Units issued. Any Units issued will be registered in the name of the relevant unitholders in the Register kept by the Registrar.

The subscription price will be expressed in HK dollars. Alternative arrangements can be made for unitholders who wish to subscribe in US dollars, Japanese yen or sterling. Unitholders are advised to contact the Manager if they wish to pay in other currencies. In such cases, the Manager will charge the applicant the costs of conversion into HK dollars which may be at the spot or forward rate as determined on the business day following the dealing day, depending on the manner and currency of payment.

Payment may be made by cheque payable to “JF Funds Limited” and crossed “A/C Payee Only, Not Negotiable” or by telegraphic/bank transfer, in which case the subscription amount should be transferred net of any bank charges (i.e. the applicant is required to pay any bank or other administrative charges). A copy of the telegraphic/bank transfer request, duly receipted by the remitting bank, should accompany the Application Form. Third party cheques and cash are not accepted.

Certificates will not be issued to unitholders.

Evidence of Identity

In order to ensure compliance with any guidelines or regulations which may be applicable relating to the prevention of money laundering, applicants will be required to provide evidence of identity and, in the case of corporate applicants, of legal existence and corporate authority. Where an applicant is acting on behalf of another person, evidence of the identity of the principal, or confirmation by the applicant that evidence of the underlying principal has been obtained and that the applicant is satisfied as to the source of funds, will be required. Where an applicant fails to provide such evidence or confirmation on request, the application will be rejected.

Charges and Liabilities

A variable preliminary charge not exceeding 5% of the subscription monies may be made by the Manager, the whole or part of which may be rebated to the selling agent, but no such charge is currently made. A realization charge not exceeding 0.5% of the net asset value of the unit realized may be charged (which will be retained by the Manager for its own use and benefit) but no such charge is currently made.

The Manager currently receives an annual management fee of 0.8% of the Trust's net asset value, but the maximum charge permitted by the Trust Deed is 2.5% per annum and the Manager may increase the fee up to the maximum by giving notice to the Trustee and not less than three months' notice to unitholders. For investment in unit trusts or other collective investment schemes managed by the Manager or certain management companies connected with the Manager, the fee of the Manager will be reduced to take account of the management fee levied in respect of such unit trust or scheme to the extent attributable to the Trust's interest in such unit trust or scheme. The management fees of such connected collective investment schemes currently range between 0% and 1.75% per annum.

The Manager is entitled under the Trust Deed to an administration fee (“Administration Fee”) at the rate of 0.7% per annum of the portion of the net asset value of the Trust attributable to the Administration Units on each dealing day. However, the Manager currently receives an Administration Fee at the rate of 0.6% per annum and may only increase the level of its fee (which may not exceed 0.7% per annum) by giving three months' notice to the Trustee and the holders of Administration Units. The Administration Units will be held by trustees, custodians or other administrators of provident and retirement schemes. The Administration Fee is a charge to cover the administration of such schemes and thus will be rebated in whole or in part to the relevant scheme administrators in accordance with such arrangements as may be made with them.

The Manager's fee and Administration Fee are payable monthly.

The Trustee currently receives an annual fee of 0.1% of the Trust's net asset value, calculated and accrued on each dealing day and payable quarterly but the maximum charge permitted by the Trust Deed is 0.2% per annum and the Trustee may increase the fee up to the maximum with the agreement of the Manager and by giving three months' notice to the unitholders.

Fees of the Investment Manager are borne by the Manager. In addition to the above described fees and charges, the fees of any custodian(s) of the Trust's investments, of the Registrar (including the Trustee or Manager acting as such) and the Auditors, stamp duty and brokerage expenses incurred in the making and disposal of all investments, the costs of any supplemental trust deeds and legal and certain other expenses incurred in the administration of the Trust and the cost of the publication of statements, accounts and reports are payable by the Trust.

The liability of the unitholders of the Trust is limited to the assets comprised in the Trust.

Distribution Policy

All income will be accumulated within the Trust.

Taxation

Prospective unitholders should inform themselves of, and take their own advice on, the taxes applicable to the subscription, holding and realization of units, and any distribution (each, a “Relevant Event”) under the laws of the place of their operations, domicile, residence, citizenship and/or incorporation. Neither the Trust nor any of the parties listed in the section entitled “MANAGEMENT AND ADMINISTRATION” of this Summary of Explanatory Memorandum makes any warranty and/or representation as to the tax consequences in relation to any Relevant Event (or combination of Relevant Events) or takes any responsibility for any tax consequences in relation to any Relevant Event (or combination of Relevant Events) and each of the Trust and such parties expressly disclaims any liability whatsoever for any tax consequences in relation to any Relevant Event (or combination of Relevant Events) and/or for any loss howsoever arising (whether directly or indirectly) from any Relevant Event (or combination of

Relevant Events). Dividends, interest income, gains on the disposal of investments and other income received by the Trust on its investments in some countries may be liable to the imposition of irrecoverable withholding tax or other tax.

The following paragraphs are based on the law and practice currently in force in the Cayman Islands and Hong Kong at the date of this Summary of Explanatory Memorandum and are subject to changes in content or interpretation. They are intended as a general guide only and do not necessarily describe the tax consequences for all types of investors in the Trust and no reliance, therefore, should be placed upon them.

Cayman Islands

At present Cayman Islands Law does not impose upon the Trustee, the Manager or the unitholders any tax or duty on income or capital assets, gains or appreciations arising from the Trust.

Hong Kong

The Trust was authorized under Section 15 of the *Securities Ordinance* of Hong Kong and is now deemed to have been authorized under Section 104 of the *Securities and Futures Ordinance* of Hong Kong. As a result, any Hong Kong sourced income it derives will be exempt from Hong Kong profits tax provided the Trust is carried on in accordance with the purposes stated in its constitutive documents as approved by the Securities & Futures Commission ("SFC") and in accordance with the requirements of the SFC.

A unitholder will not be liable to Hong Kong profits tax on gains realized on the sale or realization of units except where the acquisition and disposal of units is or forms part of a trade, profession or business carried on by the unitholder in Hong Kong and the gains are revenue in nature for Hong Kong profits tax purposes. The classification of a gain as revenue or capital will depend on the particular circumstances of the unitholders. As a matter of the Inland Revenue Department practice, unitholders also should not be taxed in Hong Kong on distribution of income from the Trust. Unitholders should take advice from their own professional advisers as to their particular tax position.

Accounts

The Trust's year end is 30th June and audited accounts together with reports of the Trustee and the Manager will be sent to unitholders normally within four months after the year end. Unaudited half yearly reports will also be sent to unitholders normally within two months after 31st December.

Investment Restrictions and Borrowing

The Trust may only invest in collective investment schemes. Cash may be held for ancillary purposes.

The Trust must invest in at least two collective investment schemes.

No investment may be made for the account of the Trust if as a result: -

- (i) the value of the Trust's holding of interests in funds which have not been authorized by the SFC or established in a jurisdiction which is recognised by the SFC for the authorization of collective investment schemes would exceed 10% of the net asset value of the Trust; or
- (ii) except with the approval of the SFC, the value of the Trust's holding of interests in any one collective investment scheme would exceed 30% of the net asset value of the

Trust (the SFC has approved the increase of the limit in any one collective investment scheme managed by the Manager or its Connected Persons which invests solely in fixed income instruments to 90% of the net asset value of the Trust); or

- (iii) the value of the Trust's holding of interests in collective investment schemes the principal objective of which is investment in warrants, leveraged investments, or futures and options would exceed 10% of the net asset value of the Trust.

The Trust may not invest in any collective investment scheme which invests all its assets in other collective investment schemes.

The Manager will not be required to sell investments if any of the above limits are exceeded as a result of changes in the value of the Trust's investments, reconstructions or amalgamation, the realization of units or payments out of the Trust's assets, but the Manager shall not make any investment which would result in such limits being further exceeded and the Manager shall as a priority objective within such period of time as it considers reasonable having regard to the interests of unitholders endeavour to dispose of investments to the extent necessary to cause such limits no longer to be exceeded.

In addition, neither the Manager nor the Investment Manager may for the account of the Trust: -

- (i) invest in a security of any class if any director or officer of the Manager or the Investment Manager individually owns more than 0.5% of the total nominal amount of all the issued securities of that class or if all directors and officers of the Manager and the Investment Manager collectively own more than 5% of those securities; or
- (ii) make loans (other than by making deposits and acquiring debt and money market instruments) or give guarantees; or
- (iii) make short sales of securities; or
