The Manager expects to be able to pay distributions from net income generated by the Fund from its investment but in the event that such income is insufficient to pay distributions as it declares, the Manager may in its discretion determine such distributions may be paid from capital.

Investment involves risk. Past performance is not indicative of future performance. Funds which are invested in emerging markets and smaller companies may also involve a higher degree of risk and are usually more sensitive to price movements. Please refer to the offering document(s) for details, including the risk factors.
