
Unaudited Semi-Annual Report - 30 June 2018

JPMorgan Investment Funds

SICAV Range

This report is an abridged version of the unaudited semi-annual report established in conformity with the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment. The complete version is available on request from the Company's registered office in Luxembourg and from JPMorgan Funds (Asia) Limited.

This report does not constitute an offer of shares. Subscriptions are only valid if made on the basis of the current Hong Kong Offering Document which is available free of charge on request, supplemented by the most recent audited annual report of the Fund and any subsequent unaudited semi-annual report, from JPMorgan Funds (Asia) Limited.

Certain of the sub-funds of the Fund are not authorised for offer or distribution in or from Hong Kong. Accordingly, no reference is made to these sub-funds in this unaudited semi-annual report. The attention of the investors is drawn to the fact that certain figures in this unaudited semi-annual report are expressed on a consolidated basis and, thus, include the assets of those sub-funds which are not registered in Hong Kong.

** Share Class closed as at the end of the period.

The accompanying notes form an integral part of these Financial Statements.

1. Organisation

JPMorgan Investment Funds (the “Fund” or the “SICAV”) is an investment company incorporated on 22 December 1994 under the name J.P. Morgan Investment Funds. The name of the SICAV was changed to JPMorgan Fleming Investment Funds on 19 November 2001 and then to JPMorgan Investment Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d’Investissement à Capital Variable (SICAV). As at 30 June 2018, it comprises 17 Sub-Funds each relating to a separate investment portfolio consisting of securities, cash and other instruments.

On 12 September 2005, JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company. From 1 July 2011, JPMorgan Asset Management (Europe) S.à r.l. is acting as a Chapter 15 Management Company under the Luxembourg Law of 17 December 2010, as amended, and complies with UCITS regulations.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 49 663.

Each Sub-Fund may contain A, C, D, F, I, I2, P, T, V and X Share Classes. These Share Classes may differ in the minimum subscription amount, minimum holding amount, currency and/or eligibility requirements, the fees and expenses, and the dividend policy applicable to them. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of “(perf)” in the name of the Share Class.

Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investments.

a) Investment Valuation

Transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors.

Shares or Units in UCITS or other UCIs are valued at the latest available price or net asset value, as reported or provided by such undertakings or their agents.

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 29 June 2018. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

b) Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Day, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original Net Asset Value per Share. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The official Net Asset Value per Share as at period end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

Similarly, in order to protect the interests of Shareholders in a Sub-Fund that is being merged, the Management Company may adjust the final Net Asset Value per Share of the merging Sub-Fund, or make other appropriate adjustments in order to neutralise for the Sub-Fund being merged, the impact of any pricing adjustment made through the swing pricing mechanism in the absorbing Sub-Fund as a result of cash inflows or outflows in the absorbing Sub-Fund on the merger date.

The Management Company may consider it appropriate not to apply the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If a decision is taken in relation to a Sub-Fund the Management Company will pay the dealing and other costs resulting from securities trades to avoid the Sub-Fund suffering dilution of the net asset value. Where this happens shareholders will subscribe or redeem at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied.

c) Realised and Unrealised Gains and Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains and losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains and losses on investments. Unrealised gains and losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains and losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

JPMorgan Investment Funds

Notes to the Unaudited Financial Statements (continued)

As at 30 June 2018

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains and losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains and losses between trade date and settlement date on securities transactions and forward currency exchange contracts; and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received. The resulting gains and losses on translation are included in "Net Realised Gain/(Loss) on Foreign Exchange" in the Combined Statement of Operations and Changes in Net Assets.

The reference currency of the SICAV as reflected in the combined statements is USD.

The principal exchange rates applied for the period ended 30 June 2018 are the latest exchange rates known at the time of the NAV calculation:

1 USD =	1.353766270	AUD;	1 USD =	0.858870430	EUR;	1 USD =	8.180490000	NOK;
1 USD =	1.318580000	CAD;	1 USD =	0.759936180	GBP;	1 USD =	1.478633870	NZD;

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Forward Currency Exchange Contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Forward Currency Exchange Contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Net Unrealised Gain/(Loss) on Forward Currency Exchange Contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains and losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net Realised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Net Unrealised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net Change in Unrealised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Options purchased are recorded as investments; options written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying futures contract.

The market values are recorded under "Other Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net Change in Unrealised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

i) Interest Rate Swap Contracts

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Other Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The interest on interest rate swap contracts are recorded under "Interest on Swap Transactions" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Other Derivative Instruments". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

j) Credit Default Swaps

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment restrictions applicable to individual issuers.

The market values are recorded under "Other Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Other Derivative Instruments". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

3. Fees and Expenses

a) Charging Structures and Capped Expense Ratio

P Share Classes are subject to an additional fee charged and collected by J.P. Morgan International Bank Limited.

Unless stated otherwise in the Sub-Fund specific details, X Share Classes are designed to accommodate an alternative charging structure whereby a fee for the management of the Sub-Fund is administratively levied and collected by the Management Company or through the relevant JPMorgan Chase and Co. entity directly from the Shareholder. The Management and Advisory Fee for X Share Classes is therefore listed as "Nil" in the Fees and Expenses tables in the Prospectus.

Any exceptions to the charging structures detailed above are noted in the Prospectus.

The maximum total fees and expenses to be borne by shareholders on the Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise Management and Advisory Fees, Distribution Fees and other Operating and Administrative Expenses; it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in the Appendix.

b) Management and Advisory Fees

The SICAV pays to the Management Company a management fee calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management and Advisory Fees"). The Management and Advisory Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus. The Management Company may at its absolute discretion and from time to time (which in certain circumstances may be daily), decide to vary such rate between the maximum and 0.0%.

The maximum Management and Advisory Fee that can be charged on P Share Classes is stated in the Prospectus. However, the actual Management and Advisory Fee charged may be lower as J.P. Morgan International Bank Limited will also charge and collect a separate and additional fee from their clients.

Charges for the management of the Sub-Funds in respect of the X Share Classes of the Sub-Funds are administratively levied and collected by the Management Company or the appropriate JPMorgan Chase & Co. entity directly from the Shareholder.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by the Management Company, the Investment Managers or any other member of JPMorgan Chase & Co. In accordance with the Prospectus, no double charging of fees will occur with the exception of performance fees. The avoidance of a double-charge of the Management and Advisory Fee on such assets is achieved by either a) excluding the assets from the net assets on which the Management and Advisory Fee are calculated; or b) investing in Undertakings via share classes that do not accrue a Management and Advisory Fee or other equivalent fees payable to the relevant Investment Manager's group; or c) the Management and Advisory Fee being netted off by a rebate to the SICAV or Sub-Fund of the Management and Advisory Fee (or equivalent) charged to the underlying Undertakings; or d) charging only the difference between the Management and Advisory Fee of the SICAV or Sub-Fund as per the Prospectus and the Management and Advisory Fee (or equivalent) charged to the Undertakings.

Where a Sub-Fund invests in Undertakings managed by investment managers which are not members of JPMorgan Chase & Co. group, the Management and Advisory Fee, as specified in the Prospectus, may be charged regardless of any fees reflected in the price of the shares or units of the Undertakings.

c) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees, and other expenses incurred in the operation and administration of the SICAV from time to time. The Operating and Administrative Expenses are capped for each Share Class at the maximum rate set out in the Prospectus. The Management Company will bear any Operating and Administrative Expenses which exceed the maximum rate specified in the Prospectus. At its discretion, the Management Company may on a temporary basis meet the Direct and/or Indirect Fund Expenses on a Sub-Fund's behalf and/or waive all or part of the Fund Servicing Fee.

The Operating and Administrative Expenses are calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class. They are accrued daily and payable monthly in arrears and will not exceed the maximum rate as specified in the relevant section of the Prospectus.

The Operating and Administrative Expenses cover:

(i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.15% per annum.

(ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

Operating and Administrative Expenses do not include Transaction Fees and Extraordinary Expenses.

The SICAV's formation expenses and the expenses relating to the creation of new Sub-Funds may be capitalised and amortised over a period not exceeding five years, as permitted by Luxembourg law.

d) Performance Fees

Pursuant to the Investment Management Agreement, as set out in the Prospectus, the Investment Manager is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes payable to the Management Company on the last Dealing Day of the Financial Year, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

Sub-Funds may invest in UCITS and other UCIs managed by the Management Company, the Investment Managers or any other member of JPMorgan Chase & Co. No double-charging of Performance Fees will occur. The avoidance of a double-charge of the Performance Fee is achieved by either a) where a Sub-Fund invests in such UCITS and other UCIs, and these UCITS or UCIs charge performance fees, the Sub-Fund will not charge Performance Fees or b) where a Sub-Fund charges a Performance Fee, it will not invest in UCITS and/or UCIs that charge performance fees.

Claw-Back mechanism

The purpose of the Claw-Back Mechanism is to ensure that the Management Company will only become entitled to a Performance Fee when it outperforms the cumulative Benchmark Return (as defined in the Prospectus) accrued since the last Valuation Day of the last period in which a Performance Fee was paid.

High Water Mark Method

If the Share Class Return exceeds the Benchmark Return and the cumulative Share Class Return exceeds the High Water Mark Return (as set out in the Prospectus), the Performance Fee accrual is increased by the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. If the Share Class Return does not exceed the Benchmark Return, the Performance Fee accrual is reduced (but not below zero) by the Performance Fee Rate multiplied by the negative Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. Following a period of negative Excess Return whereby the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Share Class Return exceeds the greater of the High Water Mark Return and the cumulative Benchmark Return since the beginning of the SICAV accounting period. The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

e) Distribution Fees

The SICAV pays to the Management Company a distribution fee (the "Distribution Fee") in respect of D, F and T Share Classes. The Distribution Fee rate payable for each Share Class is stated in the Prospectus. The Management Company may at its absolute discretion and from time to time (which in certain circumstances may be daily) decide to vary such rate between the maximum and 0.0%. The Management Company may pay all or part of the Distribution Fee to certain Distributors for the services provided by them in relation to the distribution of the D, F and T Share Classes.

4. Dividend Policy

Share Classes with the suffix "(acc)" are accumulation Share Classes and will not normally pay dividends.

Share Classes suffixed "(dist)"

It is intended that all those Share Classes with the suffix "(dist)" will, if appropriate, pay reportable income annually and will have "UK Reporting Fund Status".

Share Classes suffixed "(div)"

Share Classes with the suffix "(div)" will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that "(div)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix "(div)" in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed "(mth)"

Share Classes with the suffix "(mth)" will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix "(mth)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield. Investors should be aware that "(mth)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of "(mth)" Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed "(fix)"

Share Classes with the suffix "(fix)" will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus.

Share Classes with the suffix "(fix)" may be closed to further subscriptions, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Share Classes suffixed "(irc)"

Share Classes with the suffix "(irc)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund's portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

JPMorgan Investment Funds

Notes to the Unaudited Financial Statements (continued)

As at 30 June 2018

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix “(div)”, “(fix)” and “(mth)” do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

During the period ended 30 June 2018, the SICAV paid dividends as follows:

5. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax ("taxe d'abonnement") up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the taxe d'abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

Following case law precedent within Europe, the SICAV has instigated proceedings to reclaim tax withheld by certain Member States of the European Union on dividend payments it has received. The decision to initiate proceedings against any particular Member State is the result of an analysis of the likely costs and potential benefits of doing so and the likelihood of successfully reclaiming such amounts together with the estimated time to complete proceedings varies across Member States. Any costs associated with this decision have been charged to the relevant Sub-Funds and have been included within total costs for the purposes of determining the relevant expense cap or TER and no amount has been recorded in the SICAV for any possible amounts to be received under this action.

6. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial period, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV.

7. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Other market and credit risks include the possibility that there may be an illiquid market for the contracts, that a change in the value of the contracts may not directly correlate with changes in the value of the underlying currencies, indices, or securities, or that the counterparty to a contract defaults on its obligation to perform under the terms of the contract.

8. Collateral received with respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold, reinvested or pledged.

Collateral received with respect to financial derivative instruments are shown in the Appendix.

9. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs or risk, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to undertakings for collective investments when they use certain techniques and instruments relating to transferable securities and money market instruments ("CSSF Circular 08/356") and (iii) any other applicable laws, regulations, circulars or CSSF positions.

A significant proportion of the income generated from the securities lending program is credited to participating Sub-Funds, with a portion of the income being paid to JPMorgan Chase Bank, N.A. for its role as securities lending agent for the SICAV. Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. The Management Company waives the incremental income previously received from the portion of income generated from the securities lending program; for its oversight of the program; hence, 85% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 15% income is paid to the securities lending agent which arranges the transaction. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 30 June 2018, the SICAV valuation of securities on loan is USD 210,912,475 as detailed below and received collateral with a market value of USD 223,410,942.

	Market Value	Cash Collateral**	Non Cash Collateral*	Base Currency	Lending Income (Gross)	Lending Agent Fee	Lending Income (Net)
Sub-Fund	USD	USD	USD		Base Currency	Base Currency	Base Currency
JPMorgan Investment Funds - Europe Select Equity Fund	48,003,851	4,820,668	45,723,885	EUR	294,468	44,170	250,298
JPMorgan Investment Funds - Global Dividend Fund	773,539	532,553	281,497	USD	10,396	1,559	8,837

* The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

** Cash collateral may be reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. Income earned is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

10. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Domiciliary Agent and Global Distributor, Investment Managers, Custodian, Corporate and Administrative Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) is compensated for legal services to the SICAV.

11. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the SICAV, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the SICAV and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Due to their local regulatory rights, certain Investment Managers may make use of soft commission to pay for research or execution services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

12. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial period, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, JPMorgan Asset Management (Europe) S.à r.l., Frankfurt Branch, Taunustor 1, D-60310, Frankfurt am Main, Germany. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

JPMorgan Investment Funds

Notes to the Unaudited Financial Statements (continued)

As at 30 June 2018

13. Information for Investors in Switzerland

Representative in Switzerland: JPMorgan Asset Management (Switzerland) LLC, Dreikönigstrasse 21, 8002 Zürich.

Paying Agent in Switzerland: J.P. Morgan (Suisse) SA, 8 Rue de la Confédération, 1204 Geneva.

The Prospectus, the Key Investor Information Documents, the articles of incorporation, the annual and semi-annual financial report as well as a list of the purchases and sales which the SICAV has undertaken during the financial period may be obtained free of charge from the representative.

14. Authorisation of Sub-Funds in Hong Kong

Certain Share Classes of the following Sub-Funds are authorised in Hong Kong and are available to Hong Kong residents:

- JPMorgan Investment Funds - Europe Select Equity Fund;
- JPMorgan Investment Funds - Global Dividend Fund;
- JPMorgan Investment Funds - Global High Yield Bond Fund.

15. Directors' Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Daniel Watkins and Mr Massimo Greco. The total Directors' fee for the period amounted to EUR 117,030 of which EUR 27,770 was due to the Chairman.

16. Transaction Costs

For the period ended 30 June 2018, the SICAV incurred transaction costs which have been defined as brokerage fees relating to purchase or sale of transferable securities, derivatives (except OTC derivatives) or other eligible assets. The SICAV also incurred transaction costs charged by the custodian agent and relating to purchase and sale of transferable securities as follows:

Sub-Fund	Base Currency	Custodian Transaction Costs and Brokerage Fees (in Base Currency)
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	1,846,661
JPMorgan Investment Funds - Global Dividend Fund	USD	208,877
JPMorgan Investment Funds - Global High Yield Bond Fund	USD	39,460

For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

17. Significant Events during the Period

a) Sub-Fund mergers

During the period, the following Sub-Funds were merged:

JPMorgan Funds - Europe Select Equity Plus Fund merged into JPMorgan Investment Funds - Europe Select Equity Fund on 23 February 2018.

JPMorgan Investment Funds - Europe Select Equity Fund

* Share Class inactive as at end of the period.

† Expense ratios are calculated in accordance with the guidelines dated 16 May 2008 issued by the Swiss Funds & Asset Management Association. The Total Expense Ratio ("TER") represents the total operating costs as a percentage of the Fund's average daily net assets. The total operating cost comprises investment management and advisory fees, custodian/depository fees, tax of abatement and other expenses, as summarised in the Combined Statement of Operations and Changes in Net Assets. Overdraft interest and Performance Fees are excluded from the calculation.

The capped expense ratios and total expense ratios for some Share Classes may have changed over the previous two years. All details concerning these changes have been disclosed in previous years' Financial Statements. All TER figures are annualised.

(a) These figures include Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses, where applicable.

(b) These figures include Performance Fees, where applicable.

(c) These figures include i) Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses and ii) Performance Fees, where applicable.

2. Summary of Investment Objectives of the Sub-Funds

JPMorgan Investment Funds - Europe Select Equity Fund

To achieve a return in excess of the European equity markets by investing primarily in European companies.

JPMorgan Investment Funds - Global Dividend Fund

To provide long-term capital growth by investing primarily in companies, globally, that generate high and rising income.

JPMorgan Investment Funds - Global High Yield Bond Fund

To achieve a return in excess of global bond markets by investing primarily in global below investment grade corporate debt securities, using financial derivative instruments where appropriate.

JPMorgan Investment Funds

Appendix - Unaudited Additional Disclosures (continued)

3. Performance and Volatility

Performance

Returns for periods greater than one year are annualised. SICAV performance includes reinvestment of income and is net of all expenses.

Past performance is no indication of current or future performance.

The performance data does not take into account the commissions and costs incurred on the issue and redemption of units.

Volatility

The standard deviation (D) of the price is calculated on a daily basis throughout each SICAV's financial year.

The details below relate to the period from 1 January 2018 to 30 June 2018.

If D is equal to or less than 0.1 then volatility will be Low.

If D is greater than 0.1 but less than or equal to 1.0 then volatility will be Medium.

If D is greater than 1.0 but less than or equal to 2.4 then volatility will be High.

If D is greater than 2.4 then volatility will be Very High.

4. Interest Rate Received/(Charged) on Bank Accounts

Basis for Bank Interest Rates

The rates are based on the JPMorgan Chase Treasury rates and consequently may change on a daily basis. The bank interest amount is posted to each of the SICAV's bank accounts on a monthly basis on the first business day of the subsequent month based on the bank balances from the prior month.

5. Sub-Fund Share Classes Subject to Taxe d'Abonnement Rate of 0.01%

The following Sub-Fund Share Classes are subject to an asset based tax of 0.01% per annum:

6. Portfolio Turnover Ratio

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy. The Portfolio Turnover Ratio is calculated in accordance with the CSSF Circular 03/122 as outlined below:

(Total securities' purchases and sales - total subscriptions and redemptions of Sub-Fund shares)

Average net Sub-Fund assets in Sub-Fund currency

The Portfolio Turnover Ratio is expressed as a percentage and in the case the outcome of the calculation is negative, a zero value has been published.

Sub-Fund	Portfolio Turnover Ratio (%)
JPMorgan Investment Funds - Europe Select Equity Fund	33.29
JPMorgan Investment Funds - Global Dividend Fund	84.42
JPMorgan Investment Funds - Global High Yield Bond Fund	-

7. Calculation Method of the Risk Exposure

Global exposure using the VaR approach

Global exposure using the commitment approach

Sub-Fund Name	Fund Benchmark
JPMorgan Investment Funds - Europe Select Equity Fund	MSCI Europe Index (Total Return Net)
JPMorgan Investment Funds - Global Dividend Fund	MSCI All Country World Index (Total Return Net)

8. Securities Financing Transactions

The SICAV engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, Securities Financing Transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) through its exposure on securities lending transactions during the period. In accordance with Article 13 of the Regulation, the information on securities lending transactions are detailed below.

Collaterals received or granted with respect to Securities Financing Transactions are disclosed on a trade date basis of accounting.

Global Data

Amount of securities on loan

The total value of securities on loan as a proportion of the Sub-Funds' total lendable assets as at the reporting date is detailed below. Total lendable assets represents the aggregate value of asset types forming part of the Sub-Funds' securities lending programme.

Sub-Fund	% of Total Lendable Assets
JPMorgan Investment Funds - Europe Select Equity Fund	2.87
JPMorgan Investment Funds - Global Dividend Fund	0.47

Amount of assets engaged in securities lending transactions

The following table represents the total value of assets engaged in securities lending as at the reporting date.

Sub-Fund	Sub-Fund Currency	Market Value of Securities on Loan (in Sub-Fund Currency)	% of AUM
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	41,229,088	2.77
JPMorgan Investment Funds - Global Dividend Fund	USD	773,539	0.43

Concentration Data

Ten largest collateral issuers

The following table lists the ten largest issuers by value of non-cash collaterals received by the Sub-Funds across securities lending as at the reporting date:

JPMorgan Investment Funds - Europe Select Equity Fund		JPMorgan Investment Funds - Global Dividend Fund	
Issuer	Non-Cash Collateral Value EUR	Issuer	Non-Cash Collateral Value USD
UK Treasury	19,381,404	UK Treasury	278,868
Austria Government	9,294,922	US Treasury	1,122
France Government	5,027,879	France Government	961
US Treasury	3,367,978	Finland Government	546
Belgium Government	2,055,124		
Netherlands Government	97,407		
Germany Government	46,179		

In cases where less than 10 issuers are disclosed, a total of less than 10 issuers is available for that Sub-Fund.

Top ten counterparties

As disclosed in Note 9, JPMorgan Chase Bank, N.A. is the only counterparty in respect of securities lending transactions as at the reporting date.

Aggregate Transaction Data

Type and quality of non-cash collateral

Collaterals received by the Sub-Funds in respect of securities lending as at the reporting date are in the form of debt securities having investment grade credit rating.

Sub-Fund	Sub-Fund Currency	Non-cash Collateral (in Sub-Fund Currency)	% of Total Non-Cash Collateral
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	39,270,893	100.00
JPMorgan Investment Funds - Global Dividend Fund	USD	281,497	100.00

JPMorgan Investment Funds

9. Securities Financing Transactions (continued)

Maturity tenor of collateral

The following table provides an analysis of the maturity tenor of collaterals received in relation securities lending transactions as at the reporting date.

Maturity	JPMorgan Investment Funds - Europe Select Equity Fund	JPMorgan Investment Funds - Global Dividend Fund
	EUR	USD
Cash		
less than 1 day	-	-
Non-Cash		
1 to 7 days	-	-
1 to 4 weeks	2,140,781	-
1 to 3 months	-	-
3 to 12 months	227,667	-
more than 1 year	36,902,445	281,497
	39,270,893	281,497

Currency of collateral

The following table provides currency of collaterals received in relation to securities lending transactions as at the reporting date.

Sub-Fund	Sub-Fund Currency	Collateral Value (in Sub-Fund Currency)			Total
		EUR	GBP	USD	
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	16,521,511	19,381,404	3,367,978	39,270,893
JPMorgan Investment Funds - Global Dividend Fund	USD	1,507	278,868	1,122	281,497

Maturity tenor of securities lending agreements

The SICAV's securities lending transactions have open maturity.

Country in which counterparties are established

JPMorgan Chase Bank, N.A. was incorporated in United States of America.

Settlement and clearing

All Sub-Funds engaged in securities lending agreements utilise bi-lateral settlement and clearing with their respective counterparty.

Reuse of collateral

Share of collateral received that is reused and reinvestment return

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions, reverse repurchase agreements and OTC derivative transactions, cannot be sold, reinvested or pledged.

Securities lending transactions

As at the period end, all of the cash collateral received in respect of securities lending was re-invested into Reverse Repurchase Transactions with high quality government bonds as collateral. This is managed by the Securities Lending Agent based solely on the approved guidelines and agreement issued by JPMorgan Asset Management (Europe) S.à r.l..

Income earned by the Sub-Funds from the reinvestment of cash collateral in the form of Reverse Repurchase Transactions, net of any interest payable to the relevant counterparty, amounted to USD 28,135 for the period ended 30 June 2018 and is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

Details relating to the permitted reuse of cash collateral are disclosed in the latest Prospectus available from <http://www.jpmorganassetmanagement.lu>.

JPMorgan Investment Funds

Appendix - Unaudited Additional Disclosures (continued)

9. Securities Financing Transactions (continued)

Safekeeping of Collateral

Collateral received

The following tables provide an analysis of collateral received held at each custodian as at the reporting date:

Securities lending transactions

Sub-Fund	Custodian	Sub-Fund Currency	Collateral Value (in Sub-Fund Currency)
JPMorgan Investment Funds - Europe Select Equity Fund	JPMorgan Bank Luxembourg S.A.	EUR	39,270,893
JPMorgan Investment Funds - Global Dividend Fund	JPMorgan Bank Luxembourg S.A.	USD	281,497

Collateral granted

As at the reporting date, there was no collateral granted with respect to securities lending transactions.

Return and cost

The total income earned from securities lending transactions is split between the relevant Sub-Funds and the securities lending agent. Detail of this split is disclosed in Note 9 to the financial statements.

10. UCITS Remuneration Disclosures

JPMorgan Asset Management (Europe) S.à r.l. (the "Management Company") is the authorised manager of JPMorgan Investment Funds (the "Company") and is part of the J.P. Morgan Chase & Co. group of companies. In this section, the terms "J.P. Morgan" or "Firm" refer to that group, and each of the entities in that group globally, unless otherwise specified.

This section of the annual report has been prepared in accordance with the Undertakings for Collective Investment in Transferable Securities (the "UCITS Directive") and the "Guidelines on sound remuneration policies" issued by the European Securities and Markets Authority under the UCITS Directive.

Remuneration Policy

A summary of the Remuneration Policy currently applying to the Management Company (the "Remuneration Policy Statement") can be found at <http://www.jpmorganassetmanagement.lu/legal/emea-remuneration-policy>. This Remuneration Policy Statement includes details of how remuneration and benefits are calculated, including the financial and non-financial criteria used to evaluate performance, the responsibilities and composition of the Firm's Compensation and Management Development Committee, and the measures adopted to avoid or manage conflicts of interest. A copy of this policy can be requested free of charge from the Management Company.

The Remuneration Policy applies to all employees of the Management Company, including individuals whose professional activities may have a material impact on the risk profile of the Management Company or the UCITS Funds it manages ("UCITS Identified Staff"). The UCITS Identified Staff include members of the Board of the Management Company (the "Board"), senior management, the heads of relevant Control Functions, and holders of other key functions. Individuals are notified of their identification and the implications of this status on at least an annual basis.

The Board reviews and adopts the Remuneration Policy on an annual basis, and oversees its implementation, including the classification of UCITS Identified Staff. As at 30 June 2018, the Board last reviewed and adopted the Remuneration Policy in June 2017 with no material changes and was satisfied with its implementation.

Quantitative Disclosures

The table below provides an overview of the aggregate 2017 total remuneration paid to staff of the Management Company and the number of beneficiaries.

Due to the Firm's operational structure, the information needed to provide a further breakdown of remuneration attributable to the Company is not readily available and would not be relevant or reliable. However, for context, the Management Company manages 3 Alternative Investment Funds (with 9 Sub-Funds) and 8 UCITS (with 170 Sub-Funds), with a combined AUM as at December 2017 of USD 2,224m and USD 352,485m respectively.

	Fixed remuneration	Variable remuneration	Total remuneration	Number of beneficiaries
All staff (USD '000s)	41,236	19,359	60,595	332

The aggregate 2017 total remuneration paid to UCITS Identified Staff was USD 140,385,145, of which USD 7,342,989 relates to Senior Management and USD 133,042,156 relates to other Identified Staff⁽¹⁾.

⁽¹⁾ For 2017 the UCITS Identified Staff disclosures includes employees of companies to which portfolio management has been formally delegated, in line with the latest ESMA guidance.

Audited Annual Report - 31 December 2017

JPMorgan Investment Funds

SICAV Range

This report is an abridged version of the audited annual report established in conformity with the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment. The complete version is available on request from the Company's registered office in Luxembourg and from JPMorgan Funds (Asia) Limited.

This report does not constitute an offer of shares. Subscriptions are only valid if made on the basis of the current Hong Kong Offering Document which is available free of charge on request, supplemented by the most recent audited annual report of the Fund and any subsequent unaudited semi-annual report, from JPMorgan Funds (Asia) Limited.

Certain of the sub-funds of the Fund are not authorised for offer or distribution in or from Hong Kong. Accordingly, no reference is made to these sub-funds in this audited annual report. The attention of the investors is drawn to the fact that certain figures in this audited annual report are expressed on a consolidated basis and, thus, include the assets of those sub-funds which are not registered in Hong Kong.

Chairman

Iain O.S. Saunders

Independent Director and Chairman. A member of the Board since November 1996.

Mr Saunders graduated in Economics from Bristol University and joined Robert Fleming in 1970. He held several senior positions with the group in Hong Kong, Japan and the US, before returning to the UK in 1988. He was appointed Deputy Chairman of Fleming Asset Management and retired in 2001 following the merger of the Robert Fleming group with JP Morgan. Mr Saunders is currently Chairman of several JPMorgan managed Luxembourg-domiciled investment funds and MB Asia Select Fund.

Directors

Jacques Elvinger

Independent Director. A member of the Board since January 2009.

Mr Elvinger became a member of the Luxembourg Bar in 1984 and has been a partner of the Luxembourg law firm Elvinger Hoss Prussen since 1987. Mr Elvinger practices general corporate and banking law and specializes in the field of investment and pension funds. He is a member of the High Committee for the Development of the Financial Sector instituted by the Luxembourg Government. He is also a member of the Advisory Committees to the Luxembourg Commission for the Supervision of the Financial Sector in the area of investment funds. He is a member of the Board of Directors of the Association of the Luxembourg Fund Industry (ALFI) and is currently chairman of ALFI's Regulatory Board. Mr Elvinger currently holds a number of board mandates with Luxembourg investment funds including several JPMorgan managed Luxembourg-domiciled investment funds.

Massimo Greco

Connected Director. A member of the Board since November 2015.

Mr Greco, Managing Director, is responsible for JPMorgan Asset Management's Global Funds business in Europe, based in London. He took on his current responsibilities in 2012. Mr Greco has been a JPMorgan employee since 1992, initially with the Investment Banking unit, moving to Asset Management in 1998. Before that, he worked for Goldman Sachs International in London. Mr Greco holds a degree in Economics from the University of Turin and an MBA (Major in Finance) from the Anderson Graduate School of Management at UCLA. Mr Greco is a Member of the Board of JPMorgan Asset Management (Europe) S.à r.l. as well as other Luxembourg domiciled SICAVs and is on the Board of European Fund Asset Management Association ("EFAMA").

John Li How Cheong

Independent Director. A member of the Board since June 2012.

Mr Li is a fellow of the Institute of Chartered Accountants in England & Wales. Mr Li moved to Luxembourg in 1987 and has since been working in the financial sector. Mr Li was a Partner at KPMG Luxembourg for more than 20 years during which he was Managing Partner for 8 years before taking on the role of Chairman of the Supervisory Board for 3 years. Mr Li was also a member of the Global Investment Management Practice of KPMG. During these years Mr Li's experience included auditing and advising clients such as banks, investment funds, insurance companies from Europe, US, Japan and Asia offering Mr Li an extensive experience in dealing with international companies. Mr Li is a board member of the Institut Luxembourgeois des Administrateurs. Mr Li currently holds a number of board mandates with financial institutions including several JPMorgan managed Luxembourg-domiciled investment funds.

Peter Thomas Schwicht

Independent Director. A member of the Board since June 2012.

Mr Schwicht obtained a Business Economics degree from the University of Mannheim in Germany after having studied business, tax and accounting in Hamburg, Norway and the USA and was an employee of JPMorgan Asset Management from 1987 until October 2014. Prior to his retirement Mr Schwicht was the Chief Executive of Investment Management - EMEA, JPMorgan Asset Management. He had previously held positions as the Head of the Continental Europe Institutional business and the Investment Management Country Head for Institutional and Retail business in Germany where he first developed the business and then went on to expand this throughout Continental Europe. Mr Schwicht is currently a Director of several JPMorgan managed Luxembourg-domiciled investment funds.

Susanne van Dootinhg

Independent Director. A member of the Board since December 2017.

Ms van Dootinhg was at State Street Global Advisors from 2002 to 2017 with her final position being as Senior Managing Director, Head of European Governance and Regulatory Strategy, EMEA. In addition, she was the Chair of the SSGA Sicav and Management Company and has been a member of various ESMA consultative working groups since 2013. Prior to this she held positions within State Street Global Investors as the Global Head of Institutional Product Development and Research, Head of European Product Development and Management, EMEA, Head of Fixed Income Product Engineering, EMEA and Senior Fixed Income Strategist and Product Engineer. Before 2002 Ms van Dootinhg worked at Fortis Investment Management as Senior Product Manager, European Fixed Income, at Barclays Global Investors as Product Manager, Fixed Income, and at ABN AMRO Asset Management as Portfolio Manager Global Fixed Income. She graduated from Vrije Universiteit Amsterdam with a Master of Arts Financial Sector Management. Ms van Dootinhg is currently a Director of several JPMorgan managed Luxembourg-domiciled investment funds.

Daniel Watkins

Connected Director. A member of the Board since December 2014.

Mr Watkins is the Deputy CEO of J.P. Morgan Asset Management's IM Europe and Global Head of IM Client Services and Business Platform. Mr Watkins has been an employee since 1997 and oversees the business infrastructure of Investment Management in Europe and Asia including client services, fund administration, product development, and RFPs. Mr Watkins also performs the role of Deputy CEO of GIM EMEA, acting as a director of all the regulated legal entities across the region. Mr Watkins has held a number of positions at JPMorgan namely; Head of Europe COO and Global IM Operations, Head of the European Operations Team, Head of the European Transfer Agency, Head of Luxembourg Operations, manager of European Transfer Agency and London Investment Operations; and manager of the Flemings Investment Operations Teams. Mr Watkins obtained a BA in Economics and Politics from the University of York and is a qualified Financial Advisor. Mr Watkins is currently a Director of several JPMorgan managed Luxembourg and Irish domiciled investment funds and also several UK legal entities.

JPMorgan Investment Funds

Board of Directors' Report (continued)

The Board of Directors (the "Board") is pleased to present the Audited Annual Report of JPMorgan Investment Funds (the 'Fund') for the year ended 31 December 2017.

Structure of the Fund

The Fund is a variable capital investment company, organised as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed JPMorgan Asset Management (Europe) S.à r.l. (JPAME) as Management Company of the Fund. The Fund is organised as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

As at the year end the Fund had 20 Sub-Funds. All of the Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Bahrain, Belgium, Chile, Czech Republic, Croatia, Curacao and Sint Maarten, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Japan, Jersey, Korea, Liechtenstein, Macau, The Netherlands, Norway, Poland, Portugal, Singapore, Slovakia, Spain, Sweden, Switzerland, Taiwan and the United Kingdom.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010, as amended, on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010 relating to undertakings for collective investment.

A management agreement between the Fund and JPMorgan Asset Management (Europe) S.à r.l. sets out the matters over which the Management Company has authority under Chapter 15 of the law of 17 December 2010, as amended. This includes management of the Fund's assets and the provision of administration, registration, domiciliation agent and marketing services. All other matters are reserved for approval by the Board and a schedule setting out such matters for clarity is in place between the Board and the Management Company. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, risk management as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to them.

The Directors take decisions in the interests of the Fund and its shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Fund and its shareholders. The subject of conflicts of interest is documented in the Prospectus and the Management Company's policy on conflicts of interest is available for inspection on the website:

http://www.jpmorganassetmanagement.lu/ENG/Document_Library

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is chaired by Mr Saunders and consists of five Independent Directors and two Connected Directors. The Board defines a Connected Director as someone who is employed by JPMorgan Chase & Co or any of its affiliates. All Board meetings require a majority of Independent Directors to be in attendance and as such the Board acts independently from the Management Company.

The Board as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the Fund's business.

The Board has agreed that a proposal will be put to shareholders to appoint Directors on a rotational basis and believes that this is of benefit to shareholders as it will ensure that there is always continuity of Directors. In order to facilitate this proposal it is necessary that the Articles of Incorporation be altered; the decision to amend them is subject to a shareholder vote at an Extraordinary General Meeting and it is anticipated that this meeting will take place during 2018.

The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Fund's business when making recommendation to shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

Change to the Composition of the Board

At the Board meeting held on 14 December 2017, Mr Frijns resigned from the Board with effect from the close of business on that day. The Board would like to take this opportunity to record its thanks for his service.

At the same Board meeting, the Board approved that Ms Susanne van Dootingh be co-opted as a Director with effect from 15 December 2017.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board takes active steps to keep up to date with developments relevant to the Fund and have ensured that a formal training programme is in place.

Board Evaluation

The Board carries out a biennial review of its performance.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. The Chairman is paid EUR 54,000 per annum and the other Directors EUR 43,000 per annum pro rata apart from the Connected Directors who have agreed to waive their remuneration. No element of the remuneration paid by the Fund to the Directors is performance related.

Board Meetings and Committees

The Board meets quarterly but if necessary additional meetings will be arranged. Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee or indeed any other standing committees. However, this is kept under review. All Board related matters are therefore currently approved by the Board or, where there are specific matters that need further consideration, a Sub-Committee of the Board could be formed for this specific purpose. Such circumstances could be where the Board requests some amendments to the Prospectus and where it is not appropriate to wait till the next quarterly Board meeting for this to be approved. These Sub-Committee meetings are usually formed of a minimum of two Directors.

There were six Board meetings held during the year. Four of these were quarterly Board meetings where, amongst other matters, the agenda included those items highlighted under the section above called 'Role and Responsibility of the Board' and two were ad hoc Board meetings. In addition to the Board meeting where the Auditors present the report on the audit of the Fund accounts, the Independent Directors also meet with them annually without the Connected Directors being in attendance.

Internal Control

Investment management and all administrative services are provided by the Management Company and custody of assets is provided by J.P. Morgan Bank Luxembourg S.A. The Board's system of internal control therefore mainly comprises monitoring the services provided by the Management Company and the Depositary, including the operational and compliance controls established by them to meet the Fund's obligations to shareholders as set out in the Prospectus, Articles of Incorporation as well as all relevant regulations. The Management Company formally reports to the Board on a quarterly basis on the various activities it is responsible for and in addition shall inform the Board without delay of any material administrative or accounting matters.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular, the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance. These principles are set out below:

1. The Board should ensure that high standards of corporate governance are applied at all times;
2. The Board should have good professional standing and appropriate experience and to ensure that it is collectively competent to fulfil its responsibilities;
3. The Board should act fairly and independently in the best interests of the investors;
4. The Board should act with due care and diligence in the performance of their duties;
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents;
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
9. The Board should ensure that shareholder rights are exercised in a considered way and in the best interests of the Fund;
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects throughout the financial year ended 31 December 2017. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Proxy Voting Policy

The Board delegates responsibility for proxy voting to the Management Company. The Management Company manages the voting rights of the shares entrusted in a prudent and diligent manner, based exclusively on the reasonable judgement of what will best serve the financial interests of clients. So far as is practicable, the Management Company will vote at all of the meetings called by companies in which they are invested.

A copy of the proxy voting policy is available from the Fund's registered office upon request or on the website:

<https://am.jpmorgan.com/uk/institutional/corporate-governance>

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Independent Auditor

PricewaterhouseCoopers, Société coopérative, has been the Fund's Auditor since December 1994. The provision of audit services was last put to competitive tender in 2016. The Board reviewed the services of PwC in 2016 and decided that, subject to any other influencing factor, they should continue to be proposed to the Shareholders to be appointed as Auditor.

JPMorgan Investment Funds

Board of Directors' Report (continued)

Annual General Meeting

The next Annual General Meeting of the Company will be held on 27 April 2018 at the Registered Office of the Company to consider matters relating to the year ending on 31 December 2017. At this meeting shareholders will, amongst other matters, be requested to consider the usual matters at such meetings including:

1. the adoption of the financial statements and approval of the allocation of the results;
2. the approval of Directors' fees;
3. the election of the Directors, all of whom wish to stand for election;
4. the election of the Auditor;
5. the discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM, as required under Luxembourg law, is for Shareholders to vote on the discharge the Directors of their duties for the fiscal year in question. This discharge is only valid where the annual accounts contain no omission or false information concealing the real financial situation of the Company.

Privacy Policy

The Management Company complies with a privacy policy that has been issued by J.P. Morgan Asset Management which can be accessed at www.jpmorgan.com/emea-privacy-policy. This policy will be updated by 25th May 2018 to comply with the General Data Protection Regulation.

Events during the Year

During the year, the total net assets of the Fund increased from USD 45 billion to USD 58 billion at year end.

The Board agreed the following corporate actions relating to Sub-Funds during the year:

a) Changes to Prospectus

Inc Share Class Rationalisation

On 10 November 2017 the "inc" Share Class in which you were invested was merged into the "dist" Share Class within the same Sub-Fund, or where a "dist" Share Class had not been launched, your "inc" Share Class was renamed "dist".

Settlement Risk

With effect from 15 November 2017 the Articles of Incorporation and Prospectus were amended to enhance the existing protections to mitigate the risk associated with non payment of subscriptions.

Renaming of S Share Class to S1 and Creation of S2 Share Class

With effect from September 2017 the Prospectus was amended to rename the S Share Class to S1 and to reflect the creation of S2 Share Class.

New Share Class

With effect from November 2017 the I2 Share Class was added to certain Sub-Funds within Investment Funds. In addition to the launch of I2 Share Classes, certain Annual Management Charges on C and I Share Classes were reduced as of 1 December 2017.

F Share Class

With effect from September 2017 an "F" Share class was launched. The target market is the Taiwanese (distributor) retail market and initially the Share Class was launched for the following Sub-Funds:

JPMorgan Investment Funds - Global High Yield Bond Fund

JPMorgan Investment Funds - Global Dividend Fund

Currency Hedged Share Classes - Clarifications to Address Regulatory Changes

With effect from June 2017, the Prospectus was amended to enhance the description of currency hedged Share Classes in connection with the ESMA Opinion Paper on UCITS Share Classes (ESMA Opinion) and European Market Infrastructure Regulation (EMIR).

Share Class Eligibility and Minimums - Change Proposal

With effect from September 2017, the Prospectus was amended to enhance Share Class eligibility transparency and understanding.

Events after the Year-End

The Board agreed the following corporate actions relating to Sub-Funds after the year-end:

a) Sub-Fund merger:

Subsequent to the year, the following Sub-Funds were merged:

JPMorgan Funds - Europe Select Equity Plus Fund merged into JPMorgan Investment Funds - Europe Select Equity Fund on 23 February 2018.

b) Changes to Prospectus

JPMorgan Investment Funds - Global Convertibles Fund (USD) - Change proposed

With effect from December 2017, the Prospectus was amended to incorporate the change of name, change of Investment Objective and change of Investment Policy, subject to the removal of 'diversified' from the Investment Objective, so that it reads: "To provide a return by investing primarily in a conservatively constructed portfolio of convertible securities, globally."

JPMorgan Investment Funds

Board of Directors' Report (continued)

Events after the Year-End (continued)

Addition of ESG Language to various Funds

With effect from December 2017, the Prospectus was amended to reflect how Environmental, Social and Governance ("ESG") factors are integrated into the investment process for some funds.

Regulatory update - MIFID II - Changes to Commission Sharing Arrangements

With effect from 1 January 2018 J.P. Morgan Asset Management will pay for external research services.

Board of Directors

Luxembourg, 22 March 2018

EQUITY FUNDS

Global Equity

Global equity markets enjoyed a very positive year in 2017. For the first time on record global equity markets - as represented by the MSCI World Index - saw positive returns in all 12 months. The promise of a global synchronised recovery in growth and earnings saw investors rotate into cyclical companies through the year-dubbed the "reflation trade". A wealth of positive data from a range of economies, positive earnings seasons, and high consumer and business confidence saw markets reach record highs, for the most part navigating pockets of political uncertainty in Europe and moments of tension in the Korean peninsula. Despite a strong performance from cyclical industries on an improving economic backdrop, the year will be remembered for the disinflation boom and the "Amazon Effect", which saw investors flock to a few key winners, especially US tech. Against this backdrop information technology and materials were the best performing sectors while utilities and healthcare were the worst performing sectors. Emerging markets outperformed developed markets.

We continue to see evidence for a synchronised global recovery in earnings. Corporate and consumer sentiment remains high and we see positive momentum globally in analyst corporate earnings revisions. Investors should expect this to reinforce the economic cycle as companies become more willing to invest in capex and labour, especially in the US and Japan where reform packages specifically aim to encourage this. This environment is very positive for equity investing, particularly outside the US, where valuations seem a lot more reasonable, and where high operational leverage (particularly in Europe and Japan) will see companies benefit from better nominal growth. A key question for the rest of the year will be the extent to which bond and equity markets can withstand a gradual reduction in monetary stimulus, which has helped to support them in recent years and if this will increase historically low levels of market volatility. While this creates uncertainty, a healthy environment for the global economy and corporate profits will keep driving equity markets forward.

US Equity

Performance in the US equity markets in 2017 proved to be strong during the year. The newly passed tax reform act, continued strength in the job market and the resulting hopes for greater capital investment have led Street analysts to raise earnings estimates and lent support to the equity market. The S&P 500® finished the year up 21.8%, including dividends.

We maintain our view that ongoing economic growth will enable US corporate profits to continue to grow. Despite US equity markets continuing to make new highs, we think the current above average market multiples are supported by underlying earnings growth expectations and the low yield environment. We do not see a material risk of a recession in the near term, but we continue to monitor potential risks that could represent headwinds for US equity markets.

Europe Equity

2017 was a good year for European equities. Most of the strong returns were generated in the first five months of the year, with the market somewhat range-bound in the second half. The backdrop for equities remained very favourable, with confidence indicators for both manufacturing and services making new multi-year highs both in most European countries and elsewhere. Inflation remained below target but was comfortably above zero, so the blend of real growth and inflation brought a recovery in nominal growth, which in turn led to an improvement in margins. European corporate earnings grew healthily as a result, and this is expected to continue in 2018. This earnings recovery was underpinned by a recovery in margin and profits in energy, metals & mining, and banks, which had previously suffered disproportionately.

Confidence indicators remain positive in Europe, suggesting that the economy is growing above trend and has momentum. Although the European Central Bank will start to taper its QE programme, the de facto tightening to monetary conditions is very modest, and interest rates remain at very low levels. However, any steepening of yield curves should provide further support for financials and cyclicals, and the converse of this is that interest rate sensitive stocks may continue to struggle. A rising equity market along with rising interest rates would help to reverse the slightly anomalous relationship that we have seen since the financial crisis, with equities yielding more than sovereign bonds, despite the fact that the coupon on conventional bonds is fixed, whereas the dividend paid by equities should rise in line with nominal GDP. A yield gap with equities yielding more than bonds is a rational valuation response to fears of deflation - in a deflating economy dividends would be under threat, whereas bond coupons would be backed by the credibility of the issuing sovereign, but if we are emerging from deflationary fears then at some point equities should return to a valuation premium.

Japan Equity

The Japanese market ended the year with a large positive return, reaching a 26 year high, backed by strong business results and a robust global economy. The Japanese market has now appreciated for the last 6 consecutive years. In 2017 quality and growth stocks generally had the edge in the Japanese stock market.

Throughout the year, corporate earnings constantly beat market estimates, supported by robust demand. It was notable that the positive earnings revisions were not driven by JPY depreciation - the JPY slightly appreciated from 116.9 JPY/USD to 112.7 JPY/USD in 2017. Economic indicators during the year were broadly positive. Annualised real GDP figures have delivered seven straight quarters of growth - the longest stretch on record. The labour market in Japan continued to tighten.

On the political front, in the lower house election which took place on 22nd October, Abe's ruling coalition won a landslide victory with more than two-thirds of Parliament's 465 seats, which has secured four more years of stable government.

The outlook for the Japanese market remains broadly positive supported by robust corporate earnings growth, progress on corporate governance reform and better overall global economic activity.

FIXED INCOME FUNDS

Absolute Return Fixed Income

Volatility was at historically low levels across all markets in 2018. In fixed income, the 10-year US Treasury rate varied between 2.01% and 2.63% - this 62 basis point difference is the smallest since 1965, exemplifying the trading environment in 2017.

As we head into 2018, we believe the impetus for a reverse of the low volatility regime currently in place will be changing global central bank policy. We believe that the four largest global central banks may be removing liquidity from the system by the end of 2018, should current guidance and expectations remain the same. The Federal Reserve has started to increase the pace of its balance sheet reduction plan and now employs a board that tilts more hawkish after changes to the members of the Fed in 2017. The European Central Bank looks to play an important role on the global stage given their negative interest rate regime and the continuation of their bond buying programme. We expect that if the data continues to strengthen in the eurozone, we could see less accommodative policy and as a result a reduction of liquidity from the global monetary system. The uncertainty around this topic may give patient investors an opportunity to benefit from lower market conditions as we head through the year.

We remain extremely hesitant to assume interest rate risk. Flatter yield curves make it less likely that we will be involved in rate sensitive assets, while cash and short-term strategies look attractive relative to global bond prices. We feel investors are not being compensated for the risks inherent in the marketplace.

Geopolitical risk of course remains a wild card and we are prepared to take advantage with our liquidity. In general, we do expect more volatility in 2018 and will be looking for opportunities to deploy liquidity in our absolute return fixed income strategy.

US Bonds

Since the first quarter of 2016, the markets have been flooded with the overly generous monetary accommodation of the central banks. Encouraged by a persistent global economic recovery, that excess liquidity has depressed market volatility and inflated asset prices, a process that continued in 2017.

As the central banks continue with their normalisation, we expect to see an inflection point in the level of volatility and valuation across markets in 2018. It is difficult to know when we will see the tipping point, but signs would include more volatility, deeper corrections and investors demanding more return potential before taking incremental risk. For our part, we will rely on our research and be sure not to become an inadvertent seller of liquidity in the US bond markets.

Global High Yield Bonds

The high yield market total return for 2017 were positive. Despite seemingly constant geopolitical concerns, commodity price fluctuations, post-election uncertainty in the US, and central bank policy changes globally, improving fundamentals more often than not won out in the end, as each quarter in the year generated positive total returns. Synchronised, global economic growth improved throughout the year, and in the US in particular, a higher level of optimism, less regulation and fewer global headwinds help drive above trend growth. Fundamentals continued to strengthen throughout the year, culminating with the passage of a pro-growth tax reform bill.

We believe broader market high yield spreads are fair to slightly attractive relative to current and expected defaults, which are expected to remain between 1%-2% in the near-term. We anticipate episodes of volatility to persist as central bank policies develop and policy direction further evolves. We also expect an increase in merger activity which should be a net positive for high yield issuers. Technicals have been mixed due to retail outflows, foreign demand and low net issuance. While gross issuance volume has been high, given that greater than 63% of all new issues this year have been refinancings, net issuance reflects a multi-year low. High yield spreads have room to tighten modestly in either a gradual rise or stable rate environment. Yields are approaching historical lows and leave less room to absorb rate or credit volatility. We believe our current portfolio positioning and our fundamental research, bottom-up oriented style should allow us to take advantage of opportunities in the high yield market.

MULTI ASSET FUNDS

Macro-Thematic

Global equity markets were well supported in 2017 as growth accelerated and broadened out, while subdued inflation and contained bond yields kept market volatility low. Our high conviction in an increasingly positive global growth environment led us to shift portfolio positioning in the first quarter in our macro-thematic strategies, taking the majority of portfolio risk in focused equity strategies across information technology, financials and materials, which were the biggest positive contributors for 2017. We expected global bond yields to rise given our optimistic outlook on global growth however we expressed our short duration view in strategies outside of fixed income given we saw a limited diversification benefit from this asset class. Currency and advanced derivative strategies detracted, but the latter enabled us to take significant equity risk which drove strong returns.

We expect growth to remain strong given its global breadth and good current momentum, while positive sentiment and easy financial conditions provide a supportive environment. Risks to the outlook, including aggressive monetary policy tightening, are modest.

Global Convertibles

We believe that the continued strength of the world's largest economies provides a supportive backdrop for equity and credit markets. We have seen strong market performance which we expect to persist and look to continue gradually taking profit on the high equity sensitive securities and reinvesting it in more balanced bonds. While we expect continued support of credit markets, we have nevertheless taken the opportunity to increase the allocation to convertibles with higher credit qualities following a tightening of credit spreads.

We favour cyclically exposed European and American companies in the industrial and consumer sectors, as we believe they stand to benefit most from this pick-up in global economic growth. Technology names also stand to benefit from this environment and while we have taken profit on higher priced positions, we still remain constructive on the sector as a whole.

On a regional basis, we continue to see significant value in Japanese convertibles which are benefitting from a cyclical local equity market and have compelling valuations. While the measured withdrawal of monetary stimulus by central banks and concurrent increase in interest rates is likely to be challenging for non-convertible fixed income, we expect strong economic growth to provide a positive operating environment that will help drive further improvements in corporate earnings, which should in turn benefit convertible performance.

The Investment Managers

Audit Report

To the Shareholders of
JPMorgan Investment Funds

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of JPMorgan Investment Funds and of each of its Sub-Funds (the "Fund") as at 31 December 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the Combined Statement of Net Assets as at 31 December 2017;
- the Schedule of Investments as at 31 December 2017;
- the Combined Statement of Operations and Changes in Net Assets for the year then ended; and
- the Notes to the Financial Statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n° 10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

^ Share Class renamed from "(inc)" to "(dist)" Share Class with the same Sub-Fund. Please refer to Note 17).

The accompanying notes form an integral part of these Financial Statements.

1. Organisation

JPMorgan Investment Funds (the "Fund" or the "SICAV") is an investment company incorporated on 22 December 1994 under the name J.P. Morgan Investment Funds. The name of the SICAV was changed to JPMorgan Fleming Investment Funds on 19 November 2001 and then to JPMorgan Investment Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d'Investissement à Capital Variable (SICAV). As at 31 December 2017, it comprises 20 Sub-Funds each relating to a separate investment portfolio consisting of securities, cash and other instruments.

On 12 September 2005, JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company. From 1 July 2011, JPMorgan Asset Management (Europe) S.à r.l. is acting as a Chapter 15 Management Company under the Luxembourg Law of 17 December 2010, as amended, and complies with UCITS regulations.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 49 663.

Each Sub-Fund may contain A, C, D, F, I, I2, P, T, V and X Share Classes. These Share Classes may differ in the minimum subscription amount, minimum holding amount, currency and/or eligibility requirements, the fees and expenses, and the dividend policy applicable to them. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of "(perf)" in the name of the Share Class.

Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investments.

a) Investment Valuation

Transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors.

Shares or Units in UCITS or other UCIs are valued at the latest available price or net asset value, as reported or provided by such undertakings or their agents.

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 29 December 2017. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

b) Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Day, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original Net Asset Value per Share. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The official Net Asset Value per Share as at year end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

As at year end, no swing adjustment has been applied.

The Management Company may consider it appropriate not to apply the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If a decision is taken in relation to a Sub-Fund the Management Company will pay the dealing and other costs resulting from securities trades to avoid the Sub-Fund suffering dilution of the net asset value. Where this happens shareholders will subscribe or redeem at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied.

c) Realised and Unrealised Gains and Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains and losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains and losses on investments. Unrealised gains and losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains and losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2017

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains and losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains and losses between trade date and settlement date on securities transactions and forward currency exchange contracts; and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received. The resulting gains and losses on translation are included in "Net Realised Gain/(Loss) on Foreign Exchange" in the Combined Statement of Operations and Changes in Net Assets.

The reference currency of the SICAV as reflected in the combined statements is USD.

The principal exchange rates applied for the year ended 31 December 2017 are the latest exchange rates known at the time of the NAV calculation:

1 USD = 1.27985264 AUD;	1 USD = 0.83383365 EUR;	1 USD = 8.19878 NOK;
1 USD = 1.2559 CAD;	1 USD = 0.73975441 GBP;	1 USD = 1.40512601 NZD;
1 USD = 0.97617 CHF;	1 USD = 7.81413 HKD;	1 USD = 3.4877 PLN;
1 USD = 6.5113 CNH;	1 USD = 258.56 HUF;	1 USD = 8.20506 SEK;
1 USD = 21.3012 CZK;	1 USD = 112.505 JPY;	1 USD = 1.33649 SGD.

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Forward Currency Exchange Contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Forward Currency Exchange Contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Net Unrealised Gain/(Loss) on Forward Currency Exchange Contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains and losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net Realised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Net Unrealised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net Change in Unrealised Gain/(Loss) on Financial Futures Contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Options purchased are recorded as investments; options written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying futures contract.

The market values are recorded under "Other Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net Change in Unrealised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

i) To Be Announced Securities ("TBAs")

TBAs are related to mortgage backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

The Sub-Funds had TBA Dollar Rolls outstanding as at 31 December 2017, which are included in "Investment in TBAs at Market Value" and "Amounts payable on purchase of TBAs" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on TBAs". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on TBAs" in the Combined Statement of Operations and Changes in Net Assets.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2017

j) Total Return Swaps

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, basket of securities, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A Total Return Swap on a basket of equities will exchange the total performance on the specific basket of equities, selected by the Investment Manager against a reference rate plus a spread. The total performance includes interest, dividends, gains and losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment restrictions applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Other Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Other Derivative Instruments". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net Realised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

k) Credit Default Swaps

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment restrictions applicable to individual issuers.

The market values are recorded under "Other Derivative Instruments at Market Value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net Change in Unrealised Gain/(Loss) on Other Derivative Instruments". When a contract is closed, the realised gains or losses are recorded under "Net Realised Gain/(Loss) on Other Derivative Instruments" in the Combined Statement of Operations and Changes in Net Assets.

3. Fees and Expenses

a) Charging Structures and Capped Expense Ratio

P Share Classes are subject to an additional fee charged and collected by J.P. Morgan International Bank Limited.

Unless stated otherwise in the Sub-Fund specific details, X Share Classes are designed to accommodate an alternative charging structure whereby a fee for the management of the Sub-Fund is administratively levied and collected by the Management Company or through the relevant JPMorgan Chase and Co. entity directly from the Shareholder. The Management and Advisory Fee for X Share Classes is therefore listed as "Nil" in the Fees and Expenses tables in the Prospectus.

Any exceptions to the charging structures detailed above are noted in the Prospectus.

The maximum total fees and expenses to be borne by shareholders on the Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise Management and Advisory Fees, Distribution Fees and other Operating and Administrative Expenses; it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in the Appendix.

b) Management and Advisory Fees

The SICAV pays to the Management Company a management fee calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management and Advisory Fees"). The Management and Advisory Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus. The Management Company may at its absolute discretion and from time to time (which in certain circumstances may be daily), decide to vary such rate between the maximum and 0.0%.

The maximum Management and Advisory Fee that can be charged on P Share Classes is stated in the Prospectus. However, the actual Management and Advisory Fee charged may be lower as J.P. Morgan International Bank Limited will also charge and collect a separate and additional fee from their clients.

Charges for the management of the Sub-Funds in respect of the X Share Classes of the Sub-Funds are administratively levied and collected by the Management Company or the appropriate JPMorgan Chase & Co. entity directly from the Shareholder.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by the Management Company, the Investment Managers or any other member of JPMorgan Chase & Co. In accordance with the Prospectus, no double charging of fees will occur with the exception of performance fees. The avoidance of a double-charge of the Management and Advisory Fee on such assets is achieved by either a) excluding the assets from the net assets on which the Management and Advisory Fee are calculated; or b) investing in Undertakings via share classes that do not accrue a Management and Advisory Fee or other equivalent fees payable to the relevant Investment Manager's group; or c) the Management and Advisory Fee being netted off by a rebate to the SICAV or Sub-Fund of the Management and Advisory Fee (or equivalent) charged to the underlying Undertakings; or d) charging only the difference between the Management and Advisory Fee of the SICAV or Sub-Fund as per the Prospectus and the Management and Advisory Fee (or equivalent) charged to the Undertakings.

Where a Sub-Fund invests in Undertakings managed by investment managers which are not members of JPMorgan Chase & Co. group, the Management and Advisory Fee, as specified in the Prospectus, may be charged regardless of any fees reflected in the price of the shares or units of the Undertakings.

c) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees, and other expenses incurred in the operation and administration of the SICAV from time to time. The Operating and Administrative Expenses are capped for each Share Class at the maximum rate set out in the Prospectus. The Management Company will bear

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2017

any Operating and Administrative Expenses which exceed the maximum rate specified in the Prospectus. At its discretion, the Management Company may on a temporary basis meet the Direct and/or Indirect Fund Expenses on a Sub-Fund's behalf and/or waive all or part of the Fund Servicing Fee.

The Operating and Administrative Expenses are calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class. They are accrued daily and payable monthly in arrears and will not exceed the maximum rate as specified in the relevant section of the Prospectus.

The Operating and Administrative Expenses cover:

(i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.15% per annum.

(ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

Operating and Administrative Expenses do not include Transaction Fees and Extraordinary Expenses.

The SICAV's formation expenses and the expenses relating to the creation of new Sub-Funds may be capitalised and amortised over a period not exceeding five years, as permitted by Luxembourg law.

d) Performance Fees

Pursuant to the Investment Management Agreement, as set out in the Prospectus, the Investment Manager is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes payable to the Management Company on the last Dealing Day of the Financial Year, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

Sub-Funds may invest in UCITS and other UCIs managed by the Management Company, the Investment Managers or any other member of JPMorgan Chase & Co. No double-charging of Performance Fees will occur. The avoidance of a double-charge of the Performance Fee is achieved by either a) where a Sub-Fund invests in such UCITS and other UCIs, and these UCITS or UCIs charge performance fees, the Sub-Fund will not charge Performance Fees or b) where a Sub-Fund charges a Performance Fee, it will not invest in UCITS and/or UCIs that charge performance fees.

Claw-Back mechanism

The purpose of the Claw-Back Mechanism is to ensure that the Management Company will only become entitled to a Performance Fee when it outperforms the cumulative Benchmark Return (as defined in the Prospectus) accrued since the last Valuation Day of the last year in which a Performance Fee was paid.

High Water Mark Method

If the Share Class Return exceeds the Benchmark Return and the cumulative Share Class Return exceeds the High Water Mark Return (as set out in the Prospectus), the Performance Fee accrual is increased by the Performance Fee Rate multiplied by the Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. If the Share Class Return does not exceed the Benchmark Return, the Performance Fee accrual is reduced (but not below zero) by the Performance Fee Rate multiplied by the negative Excess Return multiplied by the previous Valuation Day's Adjusted net asset value for that Class. Following a period of negative Excess Return whereby the Performance Fee accrual has been reduced to zero, no new Performance Fee is accrued until such time as the cumulative Share Class Return exceeds the greater of the High Water Mark Return and the cumulative Benchmark Return since the beginning of the SICAV accounting year. The Performance Fee accrued on any Valuation Day is reflected in the Net Asset Value per Share on the basis of which subscriptions and redemptions may be accepted.

e) Distribution Fees

The SICAV pays to the Management Company a distribution fee (the "Distribution Fee") in respect of D, F and T Share Classes. The Distribution Fee rate payable for each Share Class is stated in the Prospectus. The Management Company may at its absolute discretion and from time to time (which in certain circumstances may be daily) decide to vary such rate between the maximum and 0.0%. The Management Company may pay all or part of the Distribution Fee to certain Distributors for the services provided by them in relation to the distribution of the D, F and T Share Classes.

4. Dividend Policy

Share Classes with the suffix "(acc)" are accumulation Share Classes and will not normally pay dividends.

Share Classes suffixed "(dist)"

It is intended that all those Share Classes with the suffix "(dist)" will, if appropriate, pay reportable income annually and will have "UK Reporting Fund Status".

Share Classes suffixed "(div)"

Share Classes with the suffix "(div)" will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that "(div)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix "(div)" in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2017

Share Classes suffixed “(mth)”

Share Classes with the suffix “(mth)” will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix “(mth)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund’s portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio’s expected yield. Investors should be aware that “(mth)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of “(mth)” Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed “(fix)”

Share Classes with the suffix “(fix)” will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus. Share Classes with the suffix “(fix)” may be closed to further subscriptions, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Share Classes suffixed “(irc)”

Share Classes with the suffix “(irc)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund’s portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix “(div)”, “(fix)” and “(mth)” do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

During the year ended 31 December 2017, the SICAV paid dividends as follows:

* Share Class inactive as at the end of the year.

5. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax ("taxe d'abonnement") up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the tax d'abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

Following case law precedent within Europe, the SICAV has instigated proceedings to reclaim tax withheld by certain Member States of the European Union on dividend payments it has received. The decision to initiate proceedings against any particular Member State is the result of an analysis of the likely costs and potential benefits of doing so and the likelihood of successfully reclaiming such amounts together with the estimated time to complete proceedings varies across Member States. Any costs associated with this decision have been charged to the relevant Sub-Funds and have been included within total costs for the purposes of determining the relevant expense cap or TER and no amount has been recorded in the SICAV for any possible amounts to be received under this action.

6. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV.

7. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates,

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2017

indices, and security values underlying these instruments. Other market and credit risks include the possibility that there may be an illiquid market for the contracts, that a change in the value of the contracts may not directly correlate with changes in the value of the underlying currencies, indices, or securities, or that the counterparty to a contract defaults on its obligation to perform under the terms of the contract.

8. Collateral received with respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold, reinvested or pledged.

Collateral received with respect to financial derivative instruments are shown in the Appendix.

9. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs or risk, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to undertakings for collective investments when they use certain techniques and instruments relating to transferable securities and money market instruments ("CSSF Circular 08/356") and (iii) any other applicable laws, regulations, circulars or CSSF positions.

A significant portion of the income generated from the securities lending program is credited to participating Sub-Funds, with a portion of the income being paid to JPMorgan Chase Bank, N.A. for its role as securities lending agent for the SICAV. Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. The Management Company waives the incremental income previously received from the portion of income generated from the securities lending program; for its oversight of the program; hence, 85% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 15% income is paid to the securities lending agent which arranges the transaction. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 31 December 2017, the SICAV valuation of securities on loan is USD 152,001,521, as detailed below and received collateral with a market value of USD 161,388,599.

Sub-Fund	Market Value USD	Cash Collateral**	Non Cash Collateral*	Base Currency	Lending Income (Gross) Base Currency	Lending Agent Fee Base Currency	Lending Income (Net) Base Currency
JPMorgan Investment Funds - Europe Select Equity Fund	4,073,338	-	4,402,559	EUR	416,774	62,516	354,258

* The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

** Cash collateral may be reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. Income earned is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

10. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Domiciliary Agent and Global Distributor, Investment Managers, Custodian, Corporate and Administrative Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) is compensated for legal services to the SICAV.

The following is a summary of transactions entered into during the year between the SICAV and the Manager and its Connected Persons. Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong. All such transactions were entered into in the ordinary course of business and on normal commercial terms.

Investment transactions with Connected Persons of the Manager

All the amounts are in Sub-Fund Currency.

Authorised Sub-Fund	Total purchases and sales	Currency of the Sub-Fund	Percentage of Sub-Fund's total transactions* for the year	Total brokerage commission paid	Average rate of commission paid
JPMorgan Investment Funds - Europe Select Equity Fund	4,791,979	EUR	0.18	3,834	0.08
JPMorgan Investment Funds - Global Dividend Fund	5,001,705	USD	2.16	4,485	0.09
JPMorgan Investment Funds - Global High Yield Bond Fund	10,101,850	USD	0.12	-	-

* Total transactions is the total value in Sub-Fund currency of purchases and sales dealt during the year to 31 December 2017.

11. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the SICAV, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the SICAV and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Due to their local regulatory rights, certain Investment Managers may make use of soft commission to pay for research or execution services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

JPMorgan Investment Funds

Notes to the Financial Statements (continued)

As at 31 December 2017

12. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, JPMorgan Asset Management (Europe) S.à r.l., Frankfurt Branch, Taunustor 1, D-60310, Frankfurt am Main, Germany. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

13. Information for Investors in Switzerland

Representative in Switzerland: JPMorgan Asset Management (Switzerland) LLC, Dreikönigstrasse 21, 8002 Zürich.

Paying Agent in Switzerland: J.P. Morgan (Suisse) SA, 8 Rue de la Confédération, 1204 Geneva.

The Prospectus, the Key Investor Information Documents, the articles of incorporation, the annual and semi-annual financial report as well as a list of the purchases and sales which the SICAV has undertaken during the financial year may be obtained free of charge from the representative.

14. Authorisation of Sub-Funds in Hong Kong

Certain Share Classes of the following Sub-Funds are authorised in Hong Kong and are available to Hong Kong residents:

- JPMorgan Investment Funds - Europe Select Equity Fund
- JPMorgan Investment Funds - Global Dividend Fund
- JPMorgan Investment Funds - Global High Yield Bond Fund

15. Directors' Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Daniel Watkins and Mr Massimo Greco. The total Directors' fee for the year amounted to EUR 226,000 of which EUR 54,000 was due to the Chairman.

16. Transaction Costs

For the year ended 31 December 2017, the SICAV incurred transaction costs which have been defined as brokerage fees relating to purchase or sale of transferable securities, derivatives (except OTC derivatives) or other eligible assets. The SICAV also incurred transaction costs charged by the custodian agent and relating to purchase and sale of transferable securities as follows:

Sub-Fund	Base Currency	Custodian Transaction Costs and Brokerage Fees (in Base Currency)
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	6,366,605
JPMorgan Investment Funds - Global Dividend Fund	USD	207,458
JPMorgan Investment Funds - Global High Yield Bond Fund	USD	29,922

For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

17. Significant Events during the Year

a) Share Class launches

With effect from September 2017 an "F" Share Class was launched. The target market is the Taiwanese (distributor) retail market and initially the Share Class was launched for the following Sub-Funds:

- JPMorgan Investment Funds - Global High Yield Bond Fund;
- JPMorgan Investment Funds - Global Dividend Fund.

18. Significant Events after the Year-End

a) Sub-Fund mergers

Subsequent to the year, the following Sub-Funds were merged:

- JPMorgan Funds - Europe Select Equity Plus Fund merged into JPMorgan Investment Funds - Europe Select Equity Fund on 23 February 2018.

JPMorgan Investment Funds - Europe Select Equity Fund

* Share Class inactive as at end of the year.

** Share Class reactivated during the year.

^ Share Class renamed from "Inc)" to "(dist)" Share Class with the same Sub-Fund. Please refer to Note 17).

+ Expense ratios are calculated in accordance with the guidelines dated 16 May 2008 issued by the Swiss Funds & Asset Management Association. The Total Expense Ratio ("TER") represents the total operating costs as a percentage of the Fund's average daily net assets. The total operating cost comprises investment management and advisory fees, custodian/depository fees, tax of abatement and other expenses, as summarised in the Combined Statement of Operations and Changes in Net Assets. Overdraft interest and Performance Fees are excluded from the calculation.

The capped expense ratios and total expense ratios for some Share Classes may have changed over the previous two years. All details concerning these changes have been disclosed in previous years' Financial Statements.

(a) These figures include Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses, where applicable.

(b) These figures include Performance Fees, where applicable.

(c) These figures include i) Fee Waivers on Management and Advisory Fees or Operating and Administrative expenses and ii) Performance Fees, where applicable.

2. Summary of Investment Objectives of the Sub-Funds

JPMorgan Investment Funds - Europe Select Equity Fund

To achieve a return in excess of the European equity markets by investing primarily in European companies.

JPMorgan Investment Funds - Global Dividend Fund

To provide long-term capital growth by investing primarily in companies, globally, that generate high and rising income.

JPMorgan Investment Funds - Global High Yield Bond Fund

To achieve a return in excess of global bond markets by investing primarily in global below investment grade corporate debt securities, using financial derivative instruments where appropriate.

JPMorgan Investment Funds

Appendix - Unaudited Additional Disclosures (continued)

3. Performance and Volatility

Performance

Returns for periods greater than one year are annualised. SICAV performance includes reinvestment of income and is net of all expenses.

Past performance is no indication of current or future performance.

The performance data does not take into account the commissions and costs incurred on the issue and redemption of units.

Volatility

The standard deviation (D) of the price is calculated on a daily basis throughout each SICAV's financial year.

The details below relate to the year ended 31 December 2017.

If D is equal to or less than 0.1 then volatility will be Low.

If D is greater than 0.1 but less than or equal to 1.0 then volatility will be Medium.

If D is greater than 1.0 but less than or equal to 2.4 then volatility will be High.

If D is greater than 2.4 then volatility will be Very High.

6. Portfolio Turnover Ratio

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy. The Portfolio Turnover Ratio is calculated in accordance with the CSF Circular 03/122 as outlined below:

(Total securities' purchases and sales - total subscriptions and redemptions of Sub-Fund shares)

Average net Sub-Fund assets in Sub-Fund currency

The Portfolio Turnover Ratio is expressed as a percentage and in the case the outcome of the calculation is negative, a zero value has been published.

Sub-Fund	Portfolio Turnover Ratio (%)
JPMorgan Investment Funds - Europe Select Equity Fund	78.89
JPMorgan Investment Funds - Global Dividend Fund	70.48
JPMorgan Investment Funds - Global High Yield Bond Fund	-

7. Calculation Method of the Risk Exposure

Global exposure using the VaR approach

Sub-Fund Name	Market Risk	Limit	Usage of Reg Limit Over Last 12 Months to 31 Dec 2017			Fund Benchmark	Model	Confidence Interval	Holding Period	Effective Observation Period	Leverage -Average Over Last 12 Months to 31 Dec 2017
			Minimum	Maximum	Average						
JPMorgan Investment Funds - Global High Yield Bond Fund	Relative	200%	47%	71%	61%	ICE BofA Merrill Lynch US High Yield Historical Master II Constrained Index (Total Return Gross)		99%	20 days	250 days	3%

Global exposure using the commitment approach

Sub-Fund Name	Fund Benchmark
JPMorgan Investment Funds - Europe Select Equity Fund	MSCI Europe Index (Total Return Net)
JPMorgan Investment Funds - Global Dividend Fund	MSCI All Country World Index (Total Return Net)

8. Securities Financing Transactions

The SICAV engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, Securities Financing Transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) through its exposure on securities lending transactions and total return swap contracts during the year. In accordance with Article 13 of the Regulation, the information on securities lending transactions and total return swap contracts are detailed below.

Collaterals received or granted with respect to Securities Financing Transactions are disclosed on a trade date basis of accounting.

Global Data

Amount of securities on loan

The total value of securities on loan as a proportion of the Sub-Funds' total lendable assets as at the reporting date is detailed below. Total lendable assets represents the aggregate value of asset types forming part of the Sub-Funds' securities lending programme.

Sub-Fund	% of Total Lendable Assets
JPMorgan Investment Funds - Europe Select Equity Fund	0.24

Amount of assets engaged in securities lending transactions and total return swap contracts

Securities lending transactions

The following table represents the total value of assets engaged in securities lending as at the reporting date.

Sub-Fund	Sub-Fund Currency	Market Value of Securities on Loan (in Sub-Fund Currency)	% of AUM
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	3,396,486	0.23

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Concentration Data

Ten largest collateral issuers

Securities lending transactions

The following table lists the ten largest issuers by value of non-cash collaterals received by the Sub-Funds across securities lending as at the reporting date:

JPMorgan Investment Funds - Europe Select Equity Fund	
Issuer	Non-Cash Collateral Value EUR
Germany Government	1,725,295
France Government	896,841
UK Treasury	855,473
Canada Government	193,393

In cases where less than 10 issuers are disclosed, a total of less than 10 issuers is available for that Sub-Fund.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Top ten counterparties

Securities lending transactions

As disclosed in Note 9, JPMorgan Chase Bank, N.A. is the only counterparty in respect of securities lending transactions as at the reporting date.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Aggregate Transaction Data

Type and quality of non-cash collateral

Securities lending transactions

Collaterals received by the Sub-Funds in respect of securities lending as at the reporting date are in the form of debt securities having investment grade credit rating.

Sub-Fund	Sub-Fund Currency	Non-cash Collateral (in Sub-Fund Currency)	% of Total Non-Cash Collateral
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	3,671,002	100.00

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

JPMorgan Investment Funds

Appendix - Unaudited Additional Disclosures (continued)

8. Securities Financing Transactions (continued)

Maturity tenor of collateral

The following table provides an analysis of the maturity tenor of collaterals received in relation to securities lending transactions and total return swap contracts as at the reporting date.

Securities lending transactions

Maturity	JPMorgan Investment Funds - Europe Select Equity Fund	
		EUR
Cash		
less than 1 day	-	
Non-Cash		
1 to 7 days	35,959	
1 to 4 weeks	-	
1 to 3 months	-	
3 to 12 months	44,139	
more than 1 year	3,590,904	
		<u>3,671,002</u>

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Currency of collateral

Securities lending transactions

The following table provides currency of collaterals received in relation to securities lending transactions as at the reporting date.

Sub-Fund	Collateral Value (in Sub-Fund Currency)						Total
	Sub-Fund Currency	CAD	EUR	GBP	JPY	USD	
JPMorgan Investment Funds - Europe Select Equity Fund	EUR	193,393	2,622,136	855,473	-	-	3,671,002

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Maturity tenor of securities lending agreements and total return swap contracts

Securities lending transactions

The SICAV's securities lending transactions have open maturity.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Country in which counterparties are established

Securities lending transactions

JPMorgan Chase Bank, N.A. was incorporated in United States of America.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Settlement and clearing

All Sub-Funds engaged in securities lending agreements utilise bi-lateral settlement and clearing with their respective counterparty.

8. Securities Financing Transactions (continued)

Reuse of collateral

Share of collateral received that is reused and reinvestment return

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions, reverse repurchase agreements and OTC derivative transactions, cannot be sold, reinvested or pledged.

Securities lending transactions

As at the year end, all of the cash collateral received in respect of securities lending was reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. This is managed by the Securities Lending Agent based solely on the approved guidelines and agreement issued by JPMorgan Asset Management (Europe) S.à r.l..

Income earned by the Sub-Funds from the reinvestment of cash collateral in the form of Reverse Repurchase Transactions, net of any interest payable to the relevant counterparty, amounted to USD 38,270 for the year ended 31 December 2017, and is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

Details relating to the permitted reuse of cash collateral are disclosed in the latest Prospectus available from <http://www.jpmorganassetmanagement.lu>.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Safekeeping of Collateral

Collateral received

The following tables provide an analysis of collateral received held at each custodian as at the reporting date:

Securities lending transactions

Sub-Fund	Custodian	Sub-Fund Currency	Collateral Value (in Sub-Fund Currency)
JPMorgan Investment Funds - Europe Select Equity Fund	JPMorgan Bank Luxembourg S.A.	EUR	3,671,002

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Collateral granted

Securities lending transactions

As at the reporting date, there was no collateral granted with respect to securities lending transactions.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

Return and cost

Securities lending transactions

The total income earned from securities lending transactions is split between the relevant Sub-Funds and the securities lending agent. Detail of this split is disclosed in Note 9 to the Financial Statements.

Total return swap contracts

None of the Hong Kong registered Sub-Funds engaged in total return swap contracts during the year.

9. UCITS Remuneration Disclosures

JPMorgan Asset Management (Europe) S.à r.l. (the "Management Company") is the authorised manager of JPMorgan Investment Funds (the "Company") and is part of the J.P. Morgan Chase & Co. group of companies. In this section, the terms "J.P. Morgan" or "Firm" refer to that group, and each of the entities in that group globally, unless otherwise specified.

This section of the annual report has been prepared in accordance with the Undertakings for Collective Investment in Transferable Securities (the "UCITS Directive") and the "Guidelines on sound remuneration policies" issued by the European Securities and Markets Authority under the UCITS Directive.

Remuneration Policy

A summary of the Remuneration Policy currently applying to the Management Company (the "Remuneration Policy Statement") can be found at <http://www.jpmorganassetmanagement.lu/legal/emea-remuneration-policy>. This Remuneration Policy Statement includes details of how remuneration and benefits are calculated, including the financial and non-financial criteria used to evaluate performance, the responsibilities and composition of the Firm's Compensation and Management Development Committee, and the measures adopted to avoid or manage conflicts of interest. A copy of this policy can be requested free of charge from the Management Company.

The Remuneration Policy applies to all employees of the Management Company, including individuals whose professional activities may have a material impact on the risk profile of the Management Company or the UCITS Funds it manages ("UCITS Identified Staff"). The UCITS Identified Staff include members of the Board of the Management Company (the "Board"), senior management, the heads of relevant Control Functions, and holders of other key functions. Individuals are notified of their identification and the implications of this status on at least an annual basis.

The Board reviews and adopts the Remuneration Policy on an annual basis, and oversees its implementation, including the classification of UCITS Identified Staff. As at 31 December 2017, the Board last reviewed and adopted the Remuneration Policy in June 2017 with no material changes and was satisfied with its implementation.

Quantitative Disclosures

The table below provides an overview of the aggregate 2017 total remuneration paid to staff of the Management Company and the number of beneficiaries.

Due to the Firm's operational structure, the information needed to provide a further breakdown of remuneration attributable to the Company is not readily available and would not be relevant or reliable. However, for context, the Management Company manages 3 Alternative Investment Funds (with 9 Sub-Funds) and 8 UCITS (with 170 Sub-Funds), with a combined AUM as at December 2017 of USD 2,224m and USD 352,485m respectively.

	Fixed remuneration	Variable remuneration	Total remuneration	Number of beneficiaries
All staff (USD '000s)	41,236	19,359	60,595	332

The aggregate 2017 total remuneration paid to UCITS Identified Staff was USD 140,385,145, of which USD 7,342,989 relates to Senior Management and USD 133,042,156 relates to other Identified Staff⁽¹⁾.

⁽¹⁾ For 2017 the UCITS Identified Staff disclosures includes employees of companies to which portfolio management has been formally delegated, in line with the latest ESMA guidance.
